Search Notes

Dear Kurt,

Please find below an inventor search in the bibliographic and full-text foreign patent files, as well as keyword searches in the patent and non-patent literature files, both bibliographic and full text.
References of potential pertinence have been tagged, but please review all the packets in case you like something I didn't.
In addition to searching on Dialog, I also searched Google.com, EPO/JPO/Derwent, EricAdvanced, ScienceDirect and Scirus.com.
I tried to broaden the scope per your request, so I looked for an association of a teaching method and color-coding so to indicate a subject, whether the color is on the instructor's apparel, teaching materials or a motor vehicle.
Please contact me if I can refocus or expand any aspect of this case, and please take a moment to provide any feedback (on the form provided) so EIC 3700 may better serve your needs.
Sincerely,

Emory Damron
